

Jeopardy
Long Term Care Learning Activity

Item	Description
Objective:	Given a common survey definition, abbreviation, or acronym, the surveyor will guess the term, abbreviation, or acronym with 80% accuracy.
Prior to Class:	Print and read the Jeopardy Preceptor Instructions. Familiarize yourself with the directions to open the squares and how to score the game.
Total Time for Activity:	45 minutes* (*Activity times are highly dependent on class size and dynamics. The time given is approximate.)
Materials Needed:	Computer access to the Jeopardy PowerPoint presentation, a projector, timer, bell, buzzer, or tricycle horn.
Set-Up:	Access the Jeopardy PowerPoint using the link in the Preceptor Direction sheet and project it for the class to see. If able, ask another surveyor to keep track of the time and score for you. (Alternative: If only one new surveyor, sit at a computer with the new surveyor while you click through the squares.)

Step:	Preceptor Instructions:	Activity Time:
1.	Divide the class into two groups. Determine which team goes first. Read the directions to the new surveyor(s). Review the categories.	10 min.
2.	Follow the directions. Ask each team to choose a category and a dollar amount. After hitting the buzzer, the team member has only 10 seconds to respond with an answer. (Alternate: Instead of a buzzer or horn, have surveyors hold up a colored piece of paper to be recognized.)	30 min.
3.	Debrief by reviewing the answer and questions. Solicit questions and respond appropriately.	5 min.

Jeopardy

Long Term Care Learning Activity

Directions: I will ask your team to choose a category and a dollar amount. Then I will read the clue. Any team member on either team can buzz in. I will recognize the team I heard first. That team must answer in the form of a question. (For example, “What is Form CMS-2567?”)

The team is allowed to discuss responses prior to buzzing in, but all conversation must stop when someone buzzes in. The team member that hits the buzzer must be the same team member that gives the response. Once I recognize your team, that team member has 10 seconds to answer.

A correct response earns the dollar value of the clue and gives the answering team the right to select the next clue. If the team member gives the incorrect response or fails to answer in time, that amount is deducted from the team’s score and the other team may buzz and respond. If no correct response is given, I will read the correct response, and the team who originally chose the question maintains control of the board.

Daily Doubles

There is one Daily Double on this board. Only the team that receives a Daily Double may respond to its clue. The team may wager as much as the maximum amount of a clue on the board (\$500) or as much as they have accumulated, whichever is greater. They must wager at least \$100.

The team with the most money at the end is declared the winner! Ready to get started?
